DEMO TAILORED RESUME (This is a simplified demo without actual GPT-4 integration)

In a real implementation, this would use GPT-4 to intelligently

- Extract relevant experience based on job requirements
- Highlight matching skills and qualifications
- Reword achievements to match job description language
- Format the resume professionally

SIMPLIFIED RESULT BASED ON KEYWORD MATCHING:

SENIOR SOFTWARE ENGINEER Tech Innovations Inc. | San Francisco, CA | Jan 2020 - Present - Architected and implemented a microservices-based e-commerce platform using Node.js and React, resulting in a 40% improvement in page load times and a 25% increase in conversion rates - Led the migration of legacy systems to AWS cloud infrastructure, reducing operational costs by 35% and improving system reliability with 99.99% uptime - Designed and deployed a recommendation engine using machine learning algorithms, increasing average order value by 20% - Mentored junior developers and conducted code reviews, improving team productivity by 30% - Implemented automated testing and CI/CD pipelines, reducing deployment time from days to hours
